PROFILE

I'm a passionate WordPress frontend designer with over five years of experience creating and refreshing websites that look amazing and work smoothly. I specialize in designing layouts that are not only eye-catching improving an old website, or starting from scratch, I focus on making sure every site feels unique and fits the brand perfectly. I also pay attention to performance so the websites I build don't just look good—they work great too!

WORK EXPERIENCE

Freelance WordPress Frontend Designer   2019 - 2024

- Collaborated with SYPIENT, a private incubation firm in Pakistan, to develop and maintain a user-friendly WordPress website, supporting entrepreneurship initiatives.
- Designed and launched a personal portfolio website featuring a blog, portfolio showcase, and contact details, effectively highlighting professional achievements.
- Built an educational platform to help individuals understand Disability Insurance, utilizing intuitive tools and resources for better accessibility.
- Developed a comprehensive WordPress site for ClearEarth Recycling, a leading organization in sustainable consumer product recycling, providing critical insights into recycling processes.

WordPress Web Designer | Web Fire Solution   2023 -2024

- Designed and **customized WordPress** themes to deliver visually appealing and responsive websites tailored to client needs.
- Ensured optimal functionality by proficiently utilizing plugins to enhance **website features** and **user experience**.
- Developed and maintained the **Car Audio Radar blog**, a platform offering the latest car news, reviews, tips, and engaging content to attract and retain visitors.
